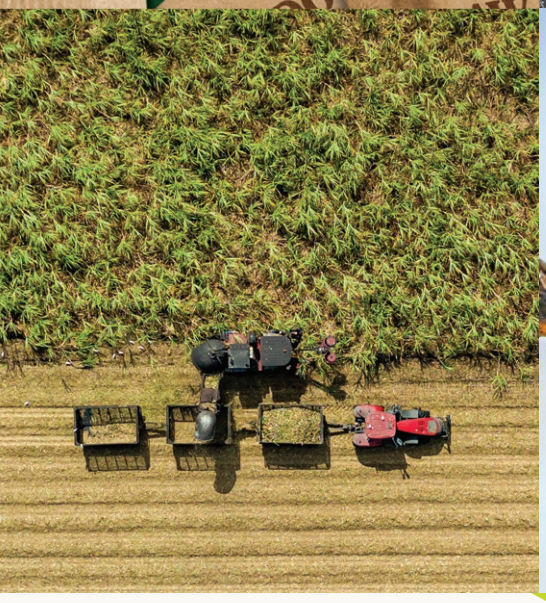
SINCE 1960
FLORIDA CRYSTALS®



FOODSERVICE PRODUCT CATALOG

Homegrown Sweetness from Our Family-Owned Farms.

You can feel good about choosing Florida Crystals® for your foodservice operation. We're the only brand of organic sugar made from sugarcane grown in the U.S. We pride ourselves on our regenerative farming approach and consistent quality.

GROWING HOPE FOR A GREENER FUTURE

Our family-owned Florida farms are managed with loving care. As a leader in organic regenerative agriculture, we've implemented regenerative farming practices that prioritize soil health, biodiversity, and farm worker fairness while aiming to combat climate change. Our farming practices make us the first and only grower of Regenerative Organic Certified® sugarcane in the U.S.

The regenerative practice of using cover crops on our farmland improves soil health, reduces insects and pests, and provides a variety of staple foods and fresh vegetables for our communities. Additionally, we build local bird habitats to offer an entirely natural round-the-clock protection for our crops. More than 2,500 nocturnal native barn owls protect our sugarcane without the need for synthetic pesticides.

Join us in our commitment to helping create a thriving planet for a cleaner, greener future.

SUSTAINABLE ONSITE MILLS

Our onsite mills allow us to precisely control how our specialty cane sugars are crafted. By milling our sugarcane ourselves within 24 hours of harvest, it helps to lock in their flavor at its absolute freshest. In addition, our sugarcane fiber is used to generate clean energy to power the entire process.

TRANSPARENCY IN OUR JOURNEY

Another reason to feel good about choosing our sugar is that we have full transparency in every step of our sugarcane's journey, from our farms to our mills to our packaging. In fact, the entire operation takes place within a 25-mile radius. So you can feel confident knowing exactly where your sugar comes from.

REGENERATIVE ORGANIC CERTIFIED® SUGARS

When you sweeten your favorite recipes with Florida Crystals®, you can feel good knowing that our organic raw cane sugars are made from sugarcane that is not only harvested from our family-owned farms and milled within 24 hours, but it's also the only organic sugarcane regeneratively farmed in the U.S.

JUGS	Item Number	Size	Case Pack	Net Weight (Lbs)	Gross Weight (Lbs)	Per Pallet	TiHi	Case Dimensions (DxWxH)	Unit Cube
Organic Raw Cane Sugar	404463	48 oz.	6	18.00	20.50	90	15x6	12.5 x 9.88 x 8.38	0.60

SPECIALTY CANE SUGARS

Count on our homegrown specialty cane sugars as the perfect source of pure sweetness for any food or drink. At Florida Crystals®, we craft our cane sugars from sugarcane regeneratively farmed in the U.S., and we do so by thoughtfully planning every step of the process. That's how we can assure quality and consistency.
